

WE ARE SEEKING
OUTSTANDING RESEARCHERS
IN MOLECULAR MEDICINE

Focus area: Regenerative Medicine

As part of a national effort to strengthen Sweden's role as a leading life science nation, The Wallenberg Centre for Molecular Medicine (WCMM) at Lund University is announcing a **Tenure track position at the assistant professor (associate senior lecturer) level** within the field of **Molecular Medicine with emphasis on Regenerative Medicine.**

Candidates should have a strong background in molecular and regenerative medicine. The successful candidate is expected to initiate and maintain a strong experimental research program in synergy with ongoing preclinical and clinical research.

An **attractive start-up package** including two doctoral students, two postdoctoral fellow positions, and an operational grant of SEK 1.5 million (approx. 150.000\$) per year for four years will be provided – see announcement.

Apply no later than **March 4th, 2019!**
